Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation events which all examiners participate in and is the scheme which was used by them in this examination. The standardisation process ensures that the mark scheme covers the students' responses to questions and that every examiner understands and applies it in the same correct way.

Supports Pearson Edexcel Level 3 Advanced GCE in Biology B (9BIO) specification. Build investigative skills, test understanding and apply biological theory to topical examples with the updated, all-in-one textbook for Years 1 and 2. Combining everything your students need to know for the Pearson Edexcel A level Biology B specification, this revised textbook will: - Support all 16 required practicals with activities and questions to help students explain procedures, analyse data and evaluate results. - Provide clear definitions, as well as explanations, of the meanings of all technical vocabulary needed for the specification. - Help bring students up to speed with a summary of prior knowledge and diagnostic questions at the start of each chapter. - Offer assessment guidance with exam practice questions at the end of each chapter, graded by difficulty to support progression. - Stretch more able students with new extended response and 'Challenge' questions. - Build mathematical skills with a dedicated

'Maths for Biology' chapter and support throughout, explaining key concepts and methods. - Develop and embed understanding with end-of-chapter summaries, free online access to 'Test yourself' answers and an extended glossary.

Exam Board: AQA, CCEA, Edexcel, OCR, WJEC/Eduqas Level: A-level Subject: Biology First teaching: September 2015 First exams: Summer 2017 Master the skills you need to set yourself apart and hit the highest grades; this year-round course companion develops the higher-order thinking skills that top-achieving students possess, providing step-by-step guidance, examples and tips for getting an A grade. Written by experienced author and teacher Jo Ormisher, Aiming for an A in A-level Biology: - Helps you develop the 'A grade skills' of analysis, evaluation, creation and application - Takes you step by step through specific skills you need to master in A-level Biology, including scientific reading, quantitative and practical skills, so you can apply these skills and approach each exam question as an A/A* candidate - Clearly shows how to move up the grades with sample responses annotated to highlight the key features of A/A* answers - Helps you practise to achieve the levels expected of top-performing students, using in-class or homework activities and further reading tasks that stretch towards university-level study - Perfects exam technique through practical tips and examples of common pitfalls to avoid - Cultivates effective revision habits for success, with tips and strategies for producing and using revision resources - Supports all exam boards, outlining the Assessment Objectives for reaching the higher levels under the AQA, Edexcel, OCR, WJEC/Eduqas and CCEA specifications
