~~World's End (Dormia): Halpern, Jake, Kujawinski, Peter ...~~

The premise of (essentially) being a super hero when you sleep is unique, and Halpern evokes it well, along with the many twists such abilities entail. His supporting characters are fun - I personally like Vice Admiral Purcheesee - and the mechanism of the Dormian's powers is also very interesting, as is the antagonist Nartem.

long-lost uncle Hill. This uncle tells a fantastical tale: Alfonso's ancestors hail from Dormia—an ancient kingdom of gifted sleepers—which is hidden in the snowy peaks of the Ural Mountains. According to Hill, Dormia exists thanks to a tree known as the Founding Tree, with roots that pump life into the frozen valley. But the Founding Tree is now dying, and in a matter of days, Dormia faces an icy apocalypse. Dormia's salvation lies with the Great Sleeper, who possesses the special powers to enter a sleep trance and grow a new Founding Tree. Hill suspects that Alfonso is just such a person. In fact, Alfonso's sleeping-self has already hatched this tree. Now the question is: Can Alfonso and his uncle deliver it in time? They must hurry, but they also must be careful not to be followed by Dormia's age-old enemy, the Dragoonya, who are always hunting for one of the secret entryways into Dormia. Alfonso agrees to take the tree to Dormia, and thus begins one of the greatest adventures a twelve-year-old boy could ever wish for. As he woke up from a late afternoon nap, Alfonso blinked open his eyes and discovered that he was perched at the top of a gigantic pine tree – some two-hundred feet above the ground. The view was spectacular. Alfonso could see for miles in every direction and he could even make out his house in the distant hamlet of World's End, Minnesota. Unfortunately, there was no time to enjoy the view. The small branch that Alfonso stood upon was covered with gleaming snow and creaked dangerously under the pressure of his weight. Icy gusts of wind shook the entire treetop. Alfonso looked down grimly at the ground far below. If he fell, he would most certainly die. "Oh brother," muttered Alfonso to himself. "Not again."

The dark will bring your worst nightmares to light in this gripping and eerie survival story, perfect for fans of James Dashner and Neil Gaiman. On Marin's island, sunrise doesn't come every twenty-four hours—it comes every twenty-eight years. Now the sun is just a sliver of light on the horizon. The weather is turning cold and the shadows are growing long. Because sunset triggers the tide to roll out hundreds of miles, the islanders are frantically preparing to sail south, where they will wait out the long Night. Marin and her twin brother, Kana, help their anxious parents ready the house for departure. Locks must be taken off doors. Furniture must be arranged. Tables must be set. The rituals are puzzling—bizarre, even—but none of the adults in town will discuss why it has to be done this way. Just as the ships are about to sail, a teenage boy goes missing—the twins' friend Line. Marin and Kana are the only ones who know the truth about where Line's gone, and the only way to rescue him is by doing it themselves. But Night is falling. Their island is changing. And it may already be too late.

Ever since returning from Dormia, Alfonso has enjoyed sleeping in a bed like a normal person. No more waking up at the top of a tree or the edge of a cliff. In fact, no sleepwalking at all. But then, while visiting France on a class trip, Alfonso feels that strange and familiar pull of sleep. Upon waking, he finds himself in the belly of a ship headed to Egypt. In his backpack are a few old books and a vial of medicine he stole while asleep. Something is calling Alfonso back to Dormia. Perhaps it's the Founding Tree? Or perhaps it's the man he sees in his dreams—the one who looks just like his deceased father? Whatever it is, Alfonso is powerless to resist. Storytellers Jake Halpern and Peter Kujawinski take Alfonso on another fantastical quest to Dormia—and beyond—to a vast underground world that holds the answer to a terrifying message: Let me tell you of a dark shadow tree and the world's end.

Accidentally left behind on an island where the sun only rises once every several years, three children discover that they are not alone and flee through an alien landscape of deadly hazards, unexpected transformations, and dark truths.

An analytical study of America's rabid fascination with the lives of celebrities draws on numerous personal interviews—with fans, Hollywood insiders, and would-be celebrities—to examine the psychological, sociological, and biological roots of the obsession, as well as its implications for modern life. By the author of *Braving Home*. Reprint.

In this long-awaited finale to the Dormia trilogy, the dreaded nursery rhyme comes to life at last as a "dark shadow tree" threatens to cause the "world's end." And who will stop it? Alfonso is now an aging, Resuza and Hill are slaves, Bilblox appears to be a traitor, and Leif is shipwrecked on the edge of a forbidding forest. An ancient prophecy states that the tree can be destroyed, but the price must be paid in blood, and whoever tries faces certain death. Nonetheless, a hero must journey northward, across the great polar expanse, to Dargora – the mythical city built of ice and human bones – and make the sacrifice before it's too late. All hope rests with a hooded girl, trudging her way through miles of desolate land. She walks slowly, carefully, methodically. Every so often, she stops to listen. She senses that she is being followed, but she is more concerned with the contents of her backpack. Nestled inside is a newborn baby, and he must be protected. He is all that matters. Soon the world will be as lifeless as the ground she is walking on, and only her charge can change the course of fate.

Now in a full-length book, the New York Times Pulitzer Prize-winning graphic story of a refugee family who fled the civil war in Syria to make a new life in America. After escaping a Syrian prison, Ibrahim Aldabaan and his family fled the country to seek protection in America. Among the few refugees to receive visas, they finally landed in JFK airport on November 8, 2016, Election Day. The family had reached a safe harbor, but woke up to the world of Donald Trump and a Muslim ban that would sever them from the grandmother, brothers, sisters, and cousins stranded in exile in Jordan. Welcome to the

Read Book Dormia 1 Jake Halpern

New World tells the Aldabaans' story. Resettled in Connecticut with little English, few friends, and even less money, the family of seven strive to create something like home. As a blur of language classes, job-training programs, and the fearsome first days of high school (with hijab) give way to normalcy, the Aldabaans are lulled into a sense of security. A white van cruising slowly past the house prompts some unease, which erupts into full terror when the family receives a death threat and is forced to flee and start all over yet again. The America in which the Aldabaans must make their way is by turns kind and ignorant, generous and cruel, uplifting and heartbreaking. Delivered with warmth and intimacy, Jake Halpern and Michael Sloan's Welcome to the New World is a wholly original view of the immigrant experience, revealing not only the trials and successes of one family but showing the spirit of a town and a country, for good and bad.

Discusses the nature of equality and looks at examples related to medical care, employment, political rights and religion.

The Federal Trade Commission receives more complaints about rogue debt collecting than about any activity besides identity theft. Dramatically and entertainingly, Bad Paper reveals why. It tells the story of Aaron Siegel, a former banking executive, and Brandon Wilson, a former armed robber, who become partners and go in quest of "paper"—the uncollected debts that are sold off by banks for pennies on the dollar. As Aaron and Brandon learn, the world of consumer debt collection is an unregulated shadowland where operators often make unwarranted threats and even collect debts that are not theirs. Introducing an unforgettable cast of strivers and rogues, Jake Halpern chronicles their lives as they manage high-pressure call centers, hunt for paper in Las Vegas casinos, and meet in parked cars to sell the social security numbers and account information of unsuspecting consumers. He also tracks a "package" of debt that is stolen by unscrupulous collectors, leading to a dramatic showdown with guns in a Buffalo corner store. Along the way, he reveals the human cost of a system that compounds the troubles of hardworking Americans and permits banks to ignore their former customers. The result is a vital exposé that is also a bravura feat of storytelling.

Orphaned Wren and her friend Alec live on Edgeland, where the dead are prepared for the afterlife, but when they are accidentally sucked into the Drain, they find something unimaginable.
