The original essays in this book address the influential writings of Peter A. French on the nature of responsibility, ethics, and

moral practices. French's contributions to a wide spectrum of philosophical discussions have made him a dominant figure in the fields of normative ethics, meta-ethics, applied ethics, as well as legal and political philosophy. Many of French's deepest insights come from identifying and exploring the scope and nature of moral responsibility and human agency as they appear in actual events, real social and cultural practices, as well as in literature and film. This immediacy renders French's scholarship vital and accessible to a wide variety of audiences. The authors, recognized for their own contributions to the understanding of the nature of morality and moral practices offer new and unique positions while exploring, expanding and responding to those of French. The final chapter is written by French, in which he provides both new philosophical insight as well as some reflection on his own work and its influence. This book will appeal to philosophers, as well as advanced students and researchers in the humanities, social sciences, law, and political science.

The fourth edition of *International Business Law and the Legal Environment: A Transactional Approach* gives business and law students a clear understanding of the legal principles that govern international business. This book goes beyond compliance by emphasizing how to use the law to create value and competitive advantage. DiMatteo's

transactional approach walks students through key business transactions—from import and export, contracts, and finance to countertrade, dispute resolution, licensing, and more—giving them both context and providing real-world applications. More concise than previous editions, this new edition also features:

- Added coverage of new technologies, such as smart contracts, digital platforms, and blockchain technology
- Discussion of businesses and sustainability, climate change, and creating a circular economy
- Greater focus on UNIDROIT Principles and a review of INCOTERMS 2020
- Expansion of common carrier coverage to include CMI trucking and CMR railway conventions
- International perspective and use of a variety of national and international law materials
- Great coverage of EU substantive law

Upper-level undergraduate and postgraduate students of business law and international business will appreciate DiMatteo's lucid writing style, and professionals will find this book to be a comprehensive resource. Online resources include an instructor's manual, PowerPoint slides, test bank, and other tools to provide additional support for students and instructors.
