In 1950's Medeleine M. Leininger, known as the foundress of Transcultural Nursing, noted cultural differences between patients and nurses while working with emotionally disturbed children. This experience led to study clinical difference in perception of the care. She recognized that health and illness states are strongly influenced by culture and formulated the theory of Transcultural Nursing.

Transcultural nursing - SlideShare

Transcultural nursing is how professional nursing interacts with the concept of culture. Based in anthropology and nursing, it is supported by nursing theory, research, and practice. It is a specific cognitive specialty in nursing that focuses on global cultures and comparative cultural caring, health, and nursing phenomena. It was established in 1955 as a formal area of inquiry and practice. It is a body of knowledge that assists in providing culturally appropriate nursing care.
